## Wireless Payment Terminal for Retail and Hospitality Environments

Artema Portable is Hypercom's wireless terminal for use in environments where greater flexibility is required. Accepting both online and offline transactions, Artema Portable provides merchants with a powerful and secure card payment solution.

Using secure DECT technology, Artema Portable can be taken directly to the cardholder for card authentication and PIN entry, improving customer service and convenience. A range of advanced communication modules also guarantee fast and trouble-free transactions.

With its robust and ergonomic design, Artema Portable is ideally suited for merchants operating in retail outlets, restaurants, cafés, bars, hotels and other points of sale where enhanced customer service is of the essence.
