## DESIGN AND SPECS

### Built from Scratch

PaySaber was a project built from the ground up to better the credit card processing community. Aspects of security, sleekness and design were all combined to form what the PaySaber is today. Design was a key factor in creating a device that would feel like it becomes part of your iPhone/iPod Touch and it not just being an attachment.

### Features, Features, Features

USAePay's experience in the credit card industry pushed the PaySaber to be feature rich to accommodate the needs of business owners. Aside from its sleek design and its light-weight compactness the PaySaber includes the built-in thermal receipt printer, product barcode scanner, extend-life lithium ion battery and so much more under the hood. Find the full list of features by reading more. [Read More...](#)

### Adaptation to Change

PaySaber's unique design allows the device to adapt to any changes that may occur with the iPhone or iPod Touch. The cradle design allows merchants to easily switch between using the iPhone and iPod Touch with an included "slip-on" adaptor.

## Size and Weight

Height:	<b>8.07</b> inches (205 mm)
Width T.:	<b>3.14</b> inches (80 mm)
Width B.:	<b>2.89</b> inches (73.43 mm)
Depth T.:	<b>2.67</b> inches (67.8 mm)
Depth B.:	<b>1.42</b> inches (36 mm)
Weight:	<b>13.1</b> ounces (.82 lbs) <b>.371</b> kg

T. - Top

B. - Bottom

## Input and Output

- 30-pin connector
- AC Adaptor (DC 8.4V/0.8A)
- USB 2.0 Adaptor
- Printer Paper Input (M200VN Mach Assmb)

## Environmental requirements

- Operating temperature: 32° to 95° F (0° to 35° C)
- Nonoperating temperature: -4° to 113° F (-20° to 45° C)
- Relative humidity: 5% to 90% noncondensing
- Maximum operating altitude: 10,000 feet (3000 m)

## Easy Swipe

Built with performance and durability in mind the PaySaber's easy swipe design makes it possible for any merchant to easily swipe credit card without any special maneuvers or handling procedures. The sleek design of the device allows merchants to swipe whether the device is being held in hand, sitting on a counter-top or buckled to their belt using our optional case-strap. As long as the merchant has at least one hand free they can swipe their customers' cards with ease.

## Battery and power

- Replaceable lithium-ion 7.4V battery
- Up to 8 hours of swiping, printing, scanning or processing.
- Charging via power adapter to wall plug or car charger (optional)

## External buttons and indicators

## PaySaber Accessories

### iPod Touch Adaptor

Slides easily into the master cradle to allow the iPod Touch to securely sit in the PaySaber. When ready to switch back to the iPhone simply unhook and slide the adaptor off.

### DC Power Adaptor

The DC Power Adaptor lets merchants charge their PaySaber directly through an electrical outlet. Comes with a 4-foot-long cable with an additional 3-foot on the PaySaber connector cable.

### Car Charger

For the merchant constantly on the go; the car charger plug into any lighter input in the car and charges the PaySaber.
